PROFILE

I am an experienced data analyst who is able to automate data analysis processes and also build GUI applications.

EDUCATION

- **University of Ghana**   Legon

  Bachelors of Science in Computer Science   Sept 2018-May 2022

- **Bolgatanga Senior High**   Bolgatanga

  General Science   Nov.2013-June 2016

EXPERIENCE

- **DEXT Solutions Consult**   East Legon, Accra

  Junior Web Developer   July 2019-Dec.2019

  I helped to build websites for businesses

SKILLS

- **Web Development**: HTML, CSS, JavaScript, WordPress
- **Data Analysis:** Microsoft Excel, Python, SQL, Tableau, Grtle
- **Others:** Probability and Statistics

PROJECTS

- **COVID-19 ANALYTICS DASHBOARD:** I used Microsoft Excel to build a system that could pull data about coronavirus from the various sources and gives an instant update about the cases globally. These data get analyzed into charts automatically upon the click of a button
- **CHURN MODELING FOR A BANK**: Currently building a predictive model for a bank that operates in three regions. The model is to determine which customers are likely to leave the bank anytime soon and what can be done to reduce churn rate.
